REPORT ON

Upgradation of Software Engineering skills of an Electrical Engineer for better employability

(Seminar)

ORGANIZED BY

DEPARTMENT OF ELECTRICAL ENGINEERING
TECHNO INDIA BATANAGAR
18th April 2018

Keeping in mind the recent inclination of the technical job market towards the IT sector, Department of Electrical Engineering of Techno India Batanagar organized a seminar on 18th of April 2018 related to upgradation of software skills of an Electrical Engineer to increase their potential for employability. The seminar was conducted by delegates of Expro Lab Infotech and Sikharthy Educational Services. Our Guest of Honor was Mr. Habibur Rahaman, Director, Expro Lab Infotech.

The Programme was inaugurated by briefly introducing our guests to the audience followed by lighting of the Lamp.

Next our Honorable speakers spoke to the audience regarding the recent trends in software. Particular attentions were paid to Android app development, Java as well as DBMS. The guests also shed some light upon certain software skills potential employers find attractive and skills which can lead to a startup.

Finally, our honorable HOD sir felicitated the guests with honorarium proceeded with refreshments.
